

About Safe in Your Arms ~

Back in 2007, the Lord protected us from a mass shooting at our church by keeping us home with a sick child. No one else in our family caught that same short-lived stomach virus. In a large family that is unheard-of. Every Sunday we would walk in the east doors of the church - the very doors the shooter chose to enter that day. We would have been there with all five of our small children at the very time he was firing.

Jesus said He'd never leave us and that He would never forsake us. With the Boston bombing, terrorism and the Body of Christ suffering in other nations, it is so comforting to know that He is with us - in death or in danger. We are not guaranteed safety but we are guaranteed to have His presence.
